## Sources

<sup>1</sup>Icelandic Tourist Board and Isavia: Departure statistics at Keflavik Airport. The counting of passengers is done manually before they enter the departure area and the limitations of the methodology needs to be kept in mind when viewing the statistics. The counting covers all passengers going through the security check. From October 2019, the counting is based on a sampling method. Results from the frequent surveys of Isavia 2017-2018 indicate, that the combined percentage of self-connecting passengers and foreign citizens living in Iceland varies between seasons but has been measured between 5.3%-10.4%. [See Ferðamálastofa.](#)

<sup>2</sup>Icelandic Tourist Board: Border Survey conducted by the Icelandic Tourist Board and Statistics Iceland at Keflavik Airport. Due to Covid the survey was not active in April, May and June 2020.

<sup>3</sup>The NPS scores indicates the ratio between participants likely to recommend Iceland (as a destination) and those, not likely to do so.

<sup>4</sup>Statistics Iceland: Accommodation statistics 2018-2020. Guest nights in registered accommodation refer to overnight stays with operators registered in Statistics Iceland's database. Estimated figures.

<sup>5</sup>Icelandic Tourist Board: Online survey among international visitors conducted by the Icelandic Tourist Board.
